

Connect to eduroam today!

Moobilenetx is retiring June 22, 2017!

Eduroam (education roaming) is a secure, world-wide roaming service developed for the international research and education community.

Since eduroam is a global WIFI service, signing in is a little different than you may be used to. You will need to use your Kerberos ID (what you use to sign into CAS) plus our home institution – @ucdavis.edu.

1. Open wireless network settings on your computer or device
2. Choose **Eduroam**
3. Select **connect automatically** and then click **connect**
4. A window prompting you to enter your user credentials will appear. Once you have entered your information into both fields, click **OK**.
5. In the username field, enter your **Kerberos ID + @ucdavis.edu**

yourkerberos@ucdavis.edu: ✓ **CORRECT**

youremail@ucdavis.edu: ✗ **INCORRECT**

6. In the password field, enter your **Kerberos Passphrase**
7. Now that you're connected to Eduroam, take a minute to disable or "forget" the Moobilenetx network so you will no longer connect to it. Eduroam is available everywhere Moobilenetx was!

Questions? Search for *Eduroam* in the Knowledge Base (kb.ucdavis.edu) or call IT Express – (530) 754-HELP (4357)
